gene  
Os01g0621900

This figure shows a genomic map of the gene Os01g0621900. The map is a horizontal bar with a blue background. The gene structure is represented by a series of black boxes (exons) and lines (introns) along the top of the bar. The gene is located on the chromosome Os01. The map is zoomed in to show the gene structure in detail.
